Are you getting our emails?
Are you missing out? Read on!

Here at the Association we use emails to connect with people who have Allotments & Gardens as part of the self management. We use them to let you know what is going on within the Association. Send Show Schedules & Newsletters, Information on Trips, events, items being offered from other Allotmenteers and so much more.

Our emails may be heading straight for your Spam/Junk mail folder.

We would ask you to check your Spam / Junk mail folder to see if any emails are in there
from **Stevenage Gardens and Allotments Association**, **web-admin@sgaa.co.uk**, **media@sgaa.co.uk**
or **gordon.storey@sgaa.co.uk**
and if so to add these to your email clients whitelist.

Our emails are bouncing back saying no such email address.

We know people change email addresses occasionally and we also may even have entered them incorrectly into our records.

We'd ask you to please check that your email is upto date with us
By either filling out a small form above and handing in at the shop or to your site agent with your Name, email and membership number or site and Plot number.

Or just simply send an email with the same information to gordon.storey@sgaa.co.uk who can then check against our records.
